A1: Yes.

Q2: Is preparation of documents to provide temporary facilities to avoid interruption of continued airport operation included in the scope of services the Contractor is to supply?

A2: Yes, if through the design effort a need is identified for temporary facilities, then the Contractor may be asked to evaluate and design a means to provide for these facilities.

Q3: Is preparation for documents for demolition, relocation, replacement, and/or provision of temporary facilities regarding the fuel storage system west of the existing Airport Manager's Building included in the scope of services the Contractor is to supply?
